CAREER OBJECTIVE

Second-year B.Tech Artificial Intelligence and Data Science student at V.S.B. Engineering College, Karur, seeking opportunities to apply programming, database, and problem-solving skills through internships and academic projects. Eager to learn new technologies and contribute to practical software development tasks.

EDUCATION

B.Tech – Artificial Intelligence and Data Science (AI & DS)

V.S.B. Engineering College, Karur

Second Year | Expected Graduation: [Year]

CGPA: [Add current CGPA, if available]

TECHNICAL SKILLS

Programming: C, Java, Python (academic/beginner level)

Database: MySQL, SQL fundamentals

Core concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Artificial Intelligence fundamentals

Tools: MySQL Workbench, GitHub (if used)

ACADEMIC PROJECTS

Student Record Management System – Mini Project

- Planned a student-record website with an admin login and a dashboard for managing student details.
- Project scope includes adding, updating, viewing, and deleting student records.
- Technologies: [Add the actual frontend, backend, and database technologies used].

Sudoku Solver using Backtracking – DSA Assignment

- Studied how backtracking explores possible values and returns to an earlier step when a choice leads to a conflict.
- Focused on applying algorithmic problem-solving to a Sudoku grid.

RELEVANT COURSEWORK

Artificial Intelligence • Data Structures and Algorithms • Object-Oriented Programming • Database Management Systems • Fundamentals of Data Science

STRENGTHS

Willingness to learn • Problem-solving mindset • Team collaboration • Adaptability
